C* QUESTION # 1: (Principal Objectives and Coverage)

*The main objective of this proposed plan is to redraw boundaries to enhance voting impact by the full range of the diverse electorate of Los Angeles County. Our primary focus is upon preventing dilution or dissolution of voting impact of the “Cohorts of the African American Community of Interest” (CAACI).** This proposal is diligently dedicated to compliance with Section 2 and Section 5 of the Voting Rights Act.

This plan seeks to equalize the distribution of population between all five Supervisor Districts of the County and has achieved this with a variance of less than 1% average. This plan also preserves the integrity of city boundaries for the 88 cities of this county in almost all cases except the City of Los Angeles.

Plan meets all requirements of law by attempting to adhere to requirements of the Voting Rights Act and the Civil Rights Act. The one person, one vote standard has been supported in the deviation from the mean in all five districts down to less than one percent in each.

D* QUESTION # 2 (Basic Trends, Basic Tenants and Rationale for Changes)

*Plan provides for enhancing the county’s capacity to continue to elect fair and effective representation. In constructing this plan it was readily observed that one component group of the minority community (the Hispanic Community) today is nearing Majority Group Status, having already reached the status of plurality (at a quite respectable **44.6%**) of the county’s total population. The inclusive Hispanic population of L.A. County (**Doj_h**) now exceeds the totals of the so-*

called “Majority” non-Hispanic White population (**Doj_nw 32.9%**). We have been called upon in this regard by these communities also to assist in guarding against packing all or most of their numbers into one or two Districts rather than spreading the influence of a nearly 50% group to influence throughout the entire county. We also received notes of concern to pursue the overall equitable distribution of the Non-Hispanic White (**Doj_nw**) minority (**32.9%** of total population) to equally assure that their voting strength as a new minority would not be diluted either.

Los Angeles County has become one of the most cosmopolitan aggregations of diverse populations in the entire world. Large numbers of immigrants are being integrated into the fabric of this county from all parts of the globe except from Africa where the number of immigrants into the US has been severely restricted by quotas for the past century. In any cast the design of the Boundary Commission’s Redistricting proposal to the Board of Supervisors and the quality of leadership continuing and emerging in the coming years will set a standard for the world.

GENERAL AND SPECIFIC RATIONALE FOR BOUNDARY CHANGES PROPOSED:

DISTRICTS 4, 2 & 1.

As has always been the tradition in Los Angeles Redistricting, we began the total process from the bottom up, starting with District 4 which is rigidly constrained on one side by the Ocean and on the other for the most part by a long stable boundary with District 2. The opportunities for adjustments to District 4 are confined therefore to both ends of the District.

Since the last redistricting, the considerable growth of African American population in Long Beach has been overshadowed by a much higher growth rate in the Hispanic population in most of the very same tracts and RDU’s. The growing concentrations of both African American and Hispanic populations in Long Beach City are proposed to be retained in the 4th District, and thereby provide more rich diversity for that District. This also enables the city of Long Beach to be left in tact.

DISTRICTS 4 & 1:

This plan proposes a change to recollect all of Whittier and its unincorporated nearby communities of interest into a one single district moving parts of the area from District 1 to District 4.

DISTRICTS 1, 2, 3 & 5:

Most notably the First District has historically had the greatest concentration of Hispanic population while by contrast, the 5th District has historically had the lowest numbers of Hispanic population. We have attempted to address these imbalances in part by reassigning the entire city of Pomona from District 1 to District 5. To offset these gains to District 5 we proposed moving the divided balance of largely non-Hispanic White, West San Fernando Valley from District 5 into District 3. This move also serves to correct another problem by bringing most of the San Fernando Valley back together in one single district (3rd), while not interfering with the communities of interest in the North and East San Gabriel Valley and Mountain District Communities of Interest. Pomona is thereby joined with the similar communities of Monrovia, Duarte, La Verne, San Dimas, Covina and West Covina. This reduction of Hispanic and low income populations from District 1 to District 5, make room for the transfer of Lynwood (all except the Watts Industrial Park which is across the Alameda Corridor from actual Lynwood) and the Hispanic Impacted Florence Graham areas which also contain much smaller portions of African American population which would thereby bring more diversity to the 1st District.

There was a concern expressed by some Hispanic community leaders regarding a need to guard against the **packing** of almost all the Hispanic population exclusively into District 1 and District 2.

DISTRICTS 1, 2, 3 & 4:

The 2nd District is now bordering on Hispanic packing or impaction in some of the scenarios tested. This impaction in District 2 had risen nearly to the level of District 1. In this plan, with Hispanic population reduced from 49.7% to 45.4%, in the Second District, and with African American population accordingly reduced from 30.4% to 28.5%. the Registered voting rates between the Inclusive (**Inc_b**) African American Community of Interest and the Hispanic Community of Interest (**Doj_h**) would yield potential for collaborations and coalition between both groups providing positive leadership emerges.. An additional infusion of more White Non Hispanic or Asian Pacific Islanders **from Bunker Hill, the Downtown Financial District and Chinatown** in the 2nd District would help reduce the packing of Hispanic population into the 2nd District. As noted, the boundary between District #4 and District #2 remains virtually unchanged in that most of the populations (Black and White) along these boundaries have remained stable over the past 10 years and are expected to continue as same in the near future.

To bring District 2 population back up to minimum deviation standards, this plan proposes the transfer from District 3 (& #4) of the adjacent communities of interest Santa Monica-Venice and the remainder of Marina Del Rey along with the Sawtell area. These changes increase multiracial diversity in the 2nd District and are reflected in the attached map and RDU Tables of Reassignment. The proposers of this plan acknowledge that there may be some difficulty in accomplishing the transfer of Santa Monica from District 3 to District 1 and thus we would offer the substitution instead of a transfer from District 1 and District 3 of the Downtown Financial District, Chinatown, Bunker Hill and parts of Hollywood-Silverlake. That alternative amendment is offered below.

AN ALTERNATIVE AMENDMENT TO THIS PROPOSAL: would be to add the stable communities of Chinatown, Bunker Hill, Financial District and Little Tokyo to the 2nd District from the 1st District if there should arise too many problems in transferring the Santa Monica - Venice territory. There is a strong, rich and effective history of a unified representation of Chinatown, Little Tokyo and the downtown Financial District in close collaboration with South Central L.A., for many years in the L.A. City, 9th Council District of the late Gilbert Lindsay. There is a long established history of these communities working together effectively.

E* QUESTION # 3 (Central Themes)

Plan enhances opportunity for all voters by bringing increased diversity to all five Districts so that all Supervisors could have in their Districts, a healthy array of rich and poor cities or neighborhoods, populations that are Black and White, Asian Pacific Islander and Hispanic as well as Native American. Asian Pacific Islander communities of interest are addressed in this plan by proposing to unify Alhambra and San Gabriel with Monterey Park, Montebello and Temple City into one single District. Previously these cities, though part of a community of interest had been divided between two districts. Similarly the alternate to this plan proposes to bring together in one district the Japanese American Cultural and economic communities of Little Tokyo and Gardena, along with Koreatown, Chinatown, and the Bunker Hill Downtown Residential Business / Financial District, in a traditional collaboration with South Central Los Angeles.

F* QUESTION # 4 (Plan's Meeting of Requirements and Definition of Terms)

DEFINITIONS: At this point it is essential to provide definition of a principal term repeatedly used in this text. The specific term is **“Cohorts of the African American Community of Interest” (CAACI).**

A CAACI, or a Cohort of the African American Community of Interest, is a member of a Cohort Group rather than a race. The African American Cohort or Community of Interest is defined herein as including:

“Any person whose ancestry is comprised one-eighth or more from ancestors who were migrated to this country involuntarily, and who worked without compensation (as a Slave) and without right to quit or escape as enforced and mandated by the US Government, any of its subordinate states and/or its predecessor colonial government (English, French or Spanish). It is further required that such ancestors must also have been described by the US Constitution (Article One Section 2) as 3/5ths of a person. All such descendants of such ancestors shall be considered as a Cohort of the African American Community of Interest regardless of their race, creed, color or national ancestry.

*For purposes of collecting data, and identifying the inclusive category of these Cohorts of the African American experience, from the 2000 Census Data, the target category used is **Incl_b.***

Historically, the Cohort of the African American Community of Interest had been more concentrated than any other by restrictive covenant laws and long standing Real Estate practices. The evolution of these communities are also devoid of natural backfill due to the seldom discussed, US Immigration restriction and immigration quotas, against almost all African nations. In the case of some countries such as Uganda, the American, annual immigration quota is actually “0”. Again seldom focused on is the fact that the last significant numbers of immigration from Africa ended more than 150 years ago, shortly before the end of the American Slave Trade and this factor impacts upon this Cohort or Community of Interest.

G* QUESTION # 5 (Optional Additional Comments)

This proposal by the African American Community of Interest was carefully constructed upon an extensive process which began with our convening at NAACP, a broad coalition of African American Community Leadership groups and individuals. This coalition included, leaders from Civil Rights organizations, Business, Religious, Labor, Professional and Academic leaders and organizations throughout California. We began with a series of Community Briefing and Feedback sessions patterned after our successful accomplishment of this same process 10 years ago. After organizing the

African American Community internally we then reached out and launched a series of multicultural collaborations with leaders and other representatives of the Asian Pacific Islander American, Hispanic, and the White-Non Hispanic communities. We also met with and coordinated our approach with representatives of many cities and of the SCAG Sub-Regions.

We also maintained representatives in attendance at the County's Boundary Review Commission meetings and at most of its Community Meetings sponsored throughout the county. We also made extensive use of the computer and internet facilities made available by the County's Boundary Commission and supportive offices.

The plan attached is a product from the African American Community of Interest in a collaborative process that arises out of a comprehensively broad and balanced approach to incorporating the most pressing issues of concern to a wide range of cohorts.

Optional additional comments are that we believe the Los Angeles County Government in its present form has yielded exceptional leadership across the board, which has not been balkanized into turf protecting separate fiefdoms. We believe that the structure and systems have been well designed. We have all observed that much more often than not, the County government of Los Angeles, has moved as a unit despite its large population and a budget greater than many independent nations. We thank you for this opportunity to provide our input and we are prepared to provide further documentation or testimony if requested.

NOTES:

1 The source for population data is the Census Bureau's 2000 Census: Public Law 94-171 Redistricting Data.

2. Only moves of community areas that have some population are included in this report; see accompanying Communities & Total Population Reassigned by This Plan for a complete list of communities moved.

3. The Department of Justice defined this set of 8 exclusive race/ethnicity population categories; persons are counted once in their applicable DOJ category.

4. The source for the voter registration data is the County of Los Angeles' Registrar-Recorder/County Clerk.

5. Registered Voters Race/Ethnicity determined by matching voter surname against lists of surnames considered to be predictive of listed ethnicity.

6 Each D-to-D column summarizes one unique combination of From-To district and city/community/area (Statistical Area), as defined by the County's Department of Regional Planning.

7 Each Subtotal column summarizes population and registered voter data for the associated "From" District's column(s).

8 The Countywide COUNT is the population or registered voter total for all reassignments.

9. The Countywide % is the population or registered voter category COUNT's percentage of the County's total for that population or registered voter category.

10. Reassigned unpopulated areas are included in this list; dashes appear for their population and registered voter counts.

NOTES:

- 1 The data source for the voter registration numbers in this table is the County of Los Angeles' Registrar-Recorder/County Clerk.
- 2 **"Latino or Spanish" surname source:** Census of Population and Housing, 1980 - Spanish Surname List Technical Documentation Prepared by Data Access and Use Staff, Data User Services Division, Bureau of the Census. - Washington: the Bureau, 1980. This list has been accepted by various courts as well as the Justice Department in Voting Rights cases.
- 3 **Asian surname source:** Lauderdale, Diane and Bert Kestenbaum. 2000. "Asian American Ethnic Identification by Surname," Population and Development Review 19(3), pp. 283-300.
- 4 **"Not Classified"** registrants include all other race ethnic categories except those identified by the lists as Asian or Hispanic by surname.
- 5 Currently there are no surname lists that have been recognized as predictive of persons who are **African Americans**.
- 6 **Ethnicity** - Determined by matching voter surname against lists of surnames considered to be predictive of listed ethnicity.
- 7 The **COUNT** columns contain registered voter totals for each district, and for Ethnicity - determined by surname, within each district.
- 8 The **%** columns contain registered voters percentages for each surname-based ethnicity. TIP: Read these percentages across.
